iLOOKABOUT Executes Sales Agreement with Lexur Appraisal to Service Montgomery County, Ohio

TORONTO, Ontario, Canada – September 26, 2018 - iLOOKABOUT Corp. (TSXV:ILA) ("iLOOKABOUT" or "the Company") today announced it has executed a multi-year Data Collection and Street-Level Imagery Software Agreement with Lexur Appraisal for services to Montgomery County, Ohio (Dayton). The Montgomery County Auditor's Office provides assessment services covering more than 274,800 properties throughout the County with a primary responsibility to identify and appraise all real property and certify the annual tax roll in accordance with Ohio State law.

In partnering with industry leader, Lexur Appraisal Services, iLOOKABOUT will provide a market-leading data collection and verification through its award-winning data collection platform, GeoViewPort™ (GVP) in conjunction with its StreetScape solution — a dynamic street-level image service.

"We pride ourselves on using the best technology available in the marketplace to deliver our appraisal services. We have partnered with iLOOKABOUT for over 10 years now, utilizing their GeoViewPort™ suite of software applications and their StreetScape image gathering process," stated Robert Fry, President of Lexur Appraisal Services. "It enables us to manage the entire process, and ultimately ensures we deliver a quality product to the Montgomery County Auditor's Office and the taxpayers of the County."

"We are exceptionally pleased that the Montgomery Ohio Auditor's Office has selected iLOOKABOUT and Lexur Appraisal to deliver our software and services for its County-wide reappraisal," stated Jeff Young, iLOOKABOUT's President. "It's a further testament from the markets we serve—both to the value of our data collection platform, GVP and StreetScape; and to the strength of the partnerships we have built in the market with partners like Lexur Appraisal, and with our customers. We look forward to building strong relationships while supporting the Auditor's Office service to the citizens of Ohio."

About iLOOKABOUT
iLOOKABOUT is a software, data analytics, data aggregation and visual intelligence company focused on real property. The Company primarily serves the property assessment, property taxation, municipal, insurance, and appraisal sectors, both public and private, in North America. iLOOKABOUT provides powerful data analytics to the real estate industry through its Real Property Tax Analytics software offering. The Company's proprietary StreetScape imagery and real property focused web-based application, GeoViewPort unifies property related data and enables desktop review of properties. iLOOKABOUT has integrated analytics and workflow management applications into GeoViewPort which create highly valued service offerings for its clients. To augment its technology-based offerings, the Company provides real estate consulting services, with a focus on the Property Tax and Valuation sectors.

iLOOKABOUT's common shares are traded on the TSX Venture Exchange under the symbol ILA.
